Hello there!

My name is Silva, I'm 21 years old and I'm very pleased to introduce myself to you. I just finished bachelor for Psychology and I'm very happy that I won the internship and I'll be there after some weeks. I have no plans for now to do the master because I'm trying to accomplish another dream of mine, which is being a designer. I'm a very good photographer, photos editor and I use different design programs. I love to travel. I want to see every single place in the world. I love winter too. Sun and beach are not for me. I take the energy from cold and rain or snow too. I also used to be a dancer. I'm extrovert. I have a lot of friends and I like to communicate and meet new people too. I am a "goal person". I wake up every day thinking and working about my goals. Music is my thing. I walk with headphones, take photos while I'm listening to music, sleep or study while I'm listening to my favorite songs. I'm more productive and inspired when I listen to music. I'm an understanding person. Altruist too. I read books and last years I've been reading a lot of psychology books. I'm an extreme type too. Sometimes there is no middle path. You have to choose and to be ready for everything and every challenge that comes in your life. Can't wait to meet you all there. Best regards, Silva.

Dear Kids,

Hello I hope you're doing well. I'm Baki from Turkey. I'm 21 years old and studying Economics at Marmara University - 3rd grade. My family lives in the Mediterranean side of Turkey. I have a brother and sister. He lives with my family and she lives with me in Istanbul. I have two nieces.

They're my brother's daughters. I'm a positive person and really funny. I can make good relationship with everyone I meet. You can talk me about everything and we can do everything whatever you want.

My hobbies are playing football and volleyball, watching TV shows, visiting new cities and countries, going out with my friends. In my free time I watch football games in the stadium to support my team. We will spend great time together. I'm going to show you interesting and funny games. I will teach you Turkish words. You're going to meet my culture and my country and I will learn your culture as well. I swear you will really like all these things.

I'm really excited about this project and Czech Republic. I can not wait to get to know you. I'm wondering about you and your country, so I'm ready guys. What about you? Are you ready?

Sometimes it is hard to introduce yourself because you know yourself so well that you do not know where to start with. Let me give a try to see what kind of image you have about me through my self-description. I hope that my impression about myself and your impression about me are not so different. I am a person who is positive about every aspect of life. There are many things I like to do, to see, and to experience. I like to travel in Historical Country, I like History, like country's peace, I like metropolis' noise, I like delicious food and traditional dances, I like good books and romantic movies, I like to laugh, I like mountains, nature, I love children and games to play with them. And my huge Like is Aviation. From my childhood I am keen on aviation. Aviation has always fascinated me. I can remember being a baby and looking up into a bright blue cloudless sky watching a very high jet drawing out its white contrail. The voice of aircraft always paid my attention. In school years I wanted to connect my life with aviation, but there was some problems about it. In my opinion does not exist and there is no problem, which can't solve motivated and enthusiastic person, so now I study at Law Faculty but I am going to continue working in aviation sphere. This is a brief introduction of myself. Do not expect too much and keep your sense of humor.

Hello,

my name is Damaris Palminteri and I am 21 years old. I come from Italy where I live in a small town in the province of Agrigento (Sicily).

I am attending my studies at the Kore University of Enna. My faculty is called Primary Education Sciences, which is a single-cycle master's degree, and allows me to become a teacher.

To be able to attend the university full time and follow all the university commitments, I live in Enna, and I feel very well in this city. I moved there from home at the age of 19, but I found another family in my colleagues and I had the opportunity to make new friends.

This year I have started the internship for the first time in some elementary classes, and I was able to see firsthand what it means to be in contact with children and dedicate a large part of my day to them. Children need a lot of attention, but it is a job that has no equal for its beauty and greatness of soul. In my free time, I do not have any particular hobby. Unfortunately I do not practice any sport, and I am a little ashamed of this, but honestly I prefer to spend my free time with friends or my family. My family is everything for me, I owe them my life and I will never stop thanking them for the values that they gave me.

I'm Vanda Nizharadze from Georgia. I live now capital Tbilisi. I graduated University Of Georgia Public Administration and got bachelor degree. Last year I pass Master's degree and I continue studying again Public Administration, because of I want to become professional on this field. It's interesting for me because of in my country need to develop public sector and solve many social problems.

This time I work in TBC Bank as a sales consultant. This work require good communications skills and permanently mobilize yourself. I have very busy schedule and have a little time to do interesting thing, studying and working together is not easy thing. Because of I have motivation to discover new thing, new country, new abilities and improve myself.

I have the best expectations on this project and I'm very happy to get chance become more global citizen. I want to share other people information of my country, because we have very acient history.
